

AUTO ACCIDENT INFORMATION

If you have suffered an auto accident, you have probably discovered that most physicians and health care providers are reluctant to take on auto accident injuries. These cases represent a certain amount of risk for a provider, as claim payment can be delayed for months or years while awaiting settlement, or even be unpaid altogether if the case is not strong enough. At Tri-Lakes, we are willing to await payment from your auto insurance medpay, a third party payer, or even settlement through your attorney. We do, however, request that you keep us informed regarding your claim/case, and please address all information requested below. If you do not have this information with you, our front desk staff will let you use a phone to gather it.

We do ask that you make a low, monthly payment of \$10, as a good-faith payment. This serves as a way of assuring our office that you are still actively pursuing your claim/case, and you have kept your treatment in our facility in mind during any settlement.
